To Whom It May Concern,

My name is Katie Hammer, and I am writing to express my interest in securing a Data Scientist position. As a rising senior at NC State's Department of Computer Science, I am eager to leverage my background and skills in computer science to contribute to your team.

From a young age, my passion for computer science has been evident, driven by a curiosity and enthusiasm for computer games and programming. This interest has developed into a robust academic and practical foundation in programming languages such as MATLAB, Python, Java, and C. I am also committed to expanding my skill set to include SQL and R in the upcoming months.

In my academic and project work, I have consistently demonstrated my ability to work effectively within team settings, contributing to collaborative successes through a blend of technical expertise, creativity, and a positive attitude. These experiences have honed my problem-solving skills and my ability to adapt to new challenges and environments quickly.

I believe that my technical skills, combined with my enthusiasm and collaborative nature, make me a strong candidate for a role in data science. I am particularly drawn to the opportunity to work in a dynamic field that values innovative problem solving and data-driven decision making. I am confident that my background in computer science and my proactive approach to learning and development will enable me to make a significant contribution to your team.

I am very excited about the possibility of discussing how I can contribute to your projects and objectives. I would be grateful for the opportunity to interview at your convenience and look forward to your response.

Thank you for considering my application. I am looking forward to the opportunity to demonstrate how I can help drive data-driven success at your company.

Warm regards,

Katie Hammer
